

Issue Details:

Application	Version	Description of issue
Settings	iOS 4 iOS 5 iOS 6	This tech note will take you through the steps to use the Do Not Disturb setting in an iPhone from the Settings app and Control Center.

Solution:

How to use the Do Not Disturb setting to silence notifications, alerts, and calls in an iPhone from Settings:

1. Open the **Settings** app as shown in Exhibit 1.
2. Toggle **Do Not Disturb** on as shown in Exhibit 2.

Note: When this setting is enabled, a moon icon appears in the status bar.

3. Go to the **Do Not Disturb** settings and make the required changes as shown in Exhibit 3:
 - a. **Manual:** Use this option to enable the silent mode when the device is locked.
 - b. **Scheduled:** Use this option to enable the silent mode only for a set interval of time.
 - c. **Allow Call From:** Use this option to set exceptions for contacts for which you don't want to keep the calls silent.
 - d. **Repeated Calls:** Use this option to disable the silent mode when the same contact is calling twice within three minutes.

How to use the Do Not Disturb setting to silence notifications, alerts, and calls in an iPhone from Control Center:

1. Open Control Center by swiping up from the bottom of the screen.
2. Tap on the **Do Not Disturb** icon as shown in Exhibit 4.
